Introduction to Doula Data

- HealthConnect One is proud to finally share Doula Data!
- This new system will strengthen the community-based doula model by building the research base behind it
- Doula Data is designed to be user-focused, easy and accessible!

Keeping Confidentiality

- Keeping data safe is a critical part of Doula Data
 - Local agencies that use Doula Data will need to sign a Business Agreement with HC One
 - Staff at local agencies and at HC One will need to sign confidentiality forms
 - All clients will need to sign HC One HIPAA and Informed Consent forms

Keeping Confidentiality

- HC One is developing protocols to ensure information remains private and confidential, including:
 - Protocol for the signing of HIPAA and Informed Consent forms
 - Protocol for the safe transfer of information between local agencies and our Chicago office
- HC One has a designated Data Coordinator trained on HIPAA and Human Subjects Protection

Welcome to Doula Data!

- As a doula, as a supervisor, as a site director...

The screenshot shows a web application interface with a purple sidebar on the left and a main content area on the right. The sidebar contains the following menu items: 'Your workspace', 'Doula tools', 'See your statistics', 'CEU Tracker', 'Your preferences', 'Contact us', and 'Exit the system'. The main content area is titled 'Your Statistics' and contains the text: 'These statistics are based on all the participants submitted.' Below this is a 'Filters' section with a dropdown menu for 'Statistics report on:' set to 'Outcomes'. Underneath, there is a 'Date Range:' section with four radio button options: 'all' (selected), 'previous calendar year', 'this calendar year so far', and 'custom date'. At the bottom of the main content area, there is an information icon (a lowercase 'i' in a circle) and a 'Show report' button.

Next Steps
